- 24 x 10/100/1000 Base-T Ethernet ports, 4 separate 1000 Base-X SFP ports
- 16 K MAC address table and MAC address auto-learning
- 12Mb large cache queue
- Supports abundant services, such as static routing, DHCP server, VLAN, IGMP, ACL, SNMP and Telnet
- Built-in 6 kV professional lightning protection power, 19 inch/1 u standard rack-mounted design

Key Features

6 kV professional lightning protection

Built-in professional lightning protection circuit, support 6KV port lightning protection, effectively reduce the damage caused to the network system by thunderstorms, and improve the robustness of the system

Layer-3 routing protocol

Supports Layer-3 static routing protocol, meeting the demand of the 3-layer networking environment in which Layer-3 networks should be interconnected while Layer-2 networks should be isolated, thus realizing an efficient and fast layer-3 routing forwarding

12M large buffer

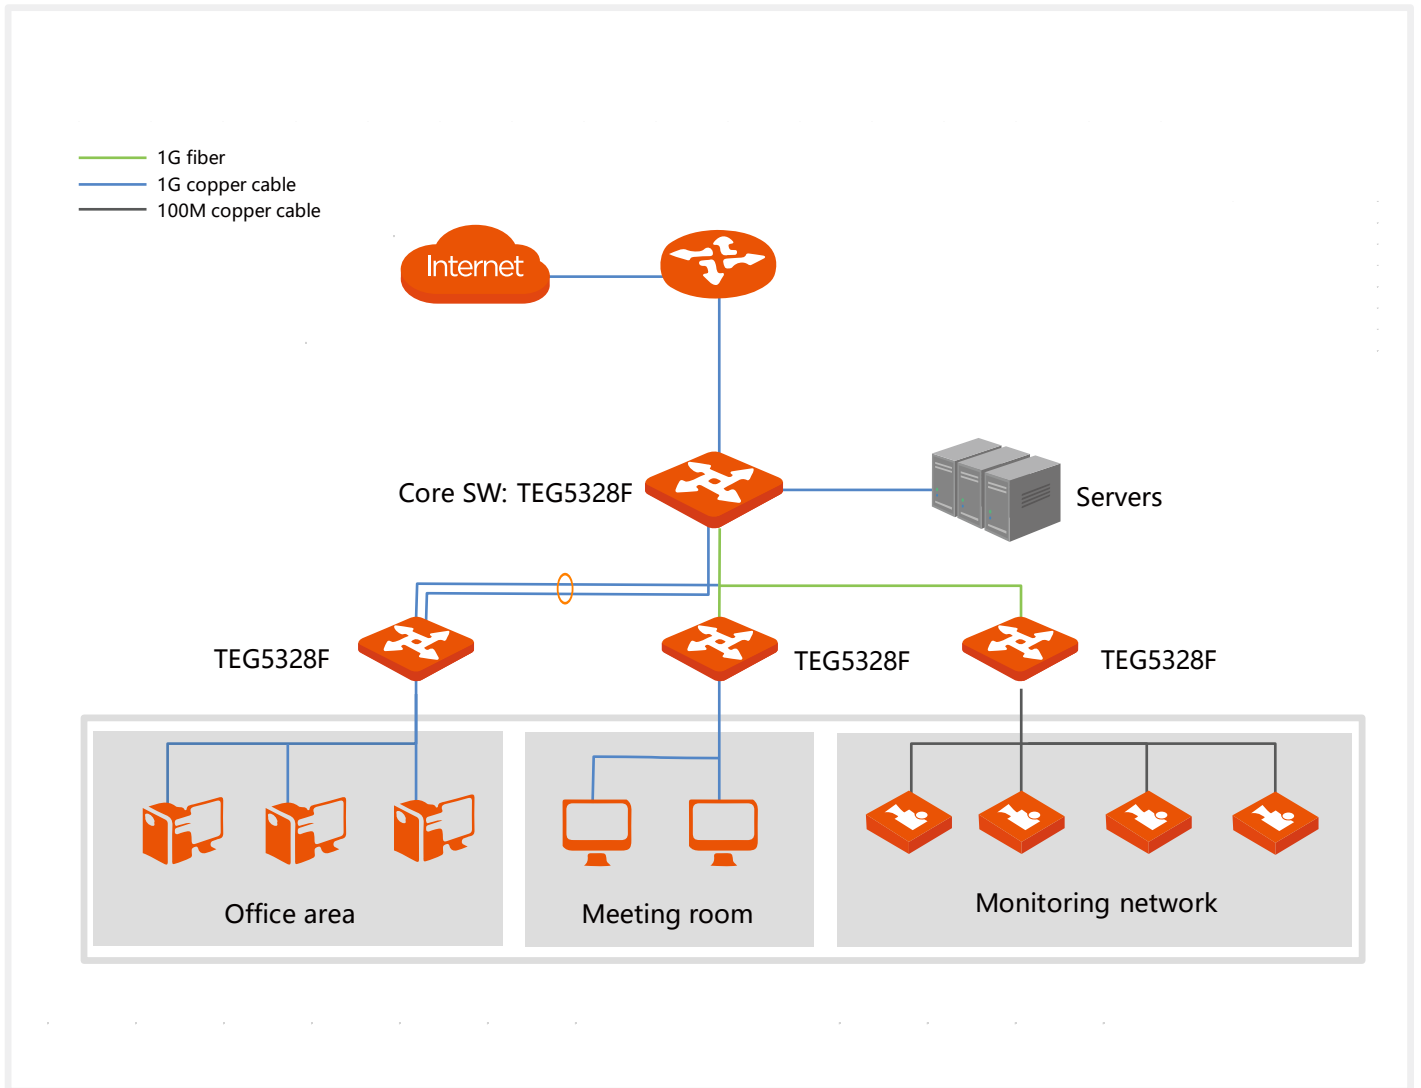

Provides a large 12Mb buffer, which can meet the network application requirements of large traffic bursts such as engine search, IPTV, P2P download, and no packet loss during traffic bursts

Rich security features

Supports IP address filtering, MAC address filtering, ARP filtering, DoS attack defense, and ACL access control list, improving network security
